## ***Coppock on Tennessee Adoption Law, 8<sup>th</sup> and Final Edition:***

How to gather information, offer clients good counsel, and how to prepare and try a case are all covered. The approach works for new and experienced attorneys and for judges too. *Coppock on Tennessee Adoption Law* remains a valuable reference, but it is also a book to read, to gain a deeper understanding and competence in this complex practice.

You will enjoy the same clear writing you have come to expect, frank acknowledgment of the difficult human concerns and ethical issues in this area with practical suggestions, and solutions or frank acknowledgment if no good solution is available.

Ms. Coppock uses statutes, caselaw, procedural rules, ethics rules, sound legal practice, and practical experience to direct you around pitfalls and to a successful resolution for the families you represent. By offering you a deep understanding of the legal, and social science landscape you will be ready to pivot and offer informed advice as the facts develop and change, which they always do. You support your clients and Ms. Coppock wrote this book to support you.

At 700+ pages of authored material, it is almost twice as long as the 7<sup>th</sup> edition even without the extensive forms library. The forms too are expanded and now offered electronically in a Word format for ease of use.

### **New features**

Big statutory changes occurred in 2023. Learn what that means for your cases.

*From who can adopt and who can be adopted to Appeals and access to records.*

Whose rights must be terminated is a long-standing issue of confusion both because the law continues to develop and because father's rights are just complicated. The chapter is updated and expanded with direction on not just whose rights must be terminated but also more on how adoptive parents can exclude men from the class of included men and how men can include themselves to protect their rights.

The all-new best interest chapter offers not only law, but also the scientific foundation needed to present a strong case on this key element of all adoptions and termination.

### **Pre-Order Now**

The 8th Edition is expected to ship in March of 2024.
